Dear Parents,

We know how busy it can be for parents and children at the beginning of the year, and we understand how difficult it is to juggle pick-up times with work schedules. To help make the day's transition smoother for the children as well as keep parent schedules from being disrupted, we are offering pick-up service for the children in our afternoon program. If you are interested in this service, please fill out the pick-up service request form and let us know in advance so that we can plan the pick-up schedule for all the children.

We will do our best to accommodate your child; however, your pick-up service request is subject to approval, depending on the distance of the school, routing restrictions, and time. We need at least two children from each school to make valuable use of the time it takes to drive to each location. Parents need to inform the school in advance if the child did not come to school in the morning, or if for any reason, the child does not need to get picked up for the day.

Thank you!

EBM Staff
